EXPERIENCE

CRM & Technical Operations Specialist
American Financial Services, LLC | July 2025 – Present

- Manage CRM operations across GoHighLevel, Zoho CRM, and partner platforms, including pipelines, calendars, workflow automations, lead routing, and opportunity management.
- Design, build, and optimize SMS, email, AI, and workflow automations that improve lead nurturing, appointment booking, follow-up campaigns, and operational efficiency.
- Configure and support AI Voice and Conversation AI workflows, including call routing, booking logic, AI summaries, notifications, and CRM integrations.
- Troubleshoot CRM systems, APIs, webhooks, third-party integrations, digital forms, PDF workflows, and backend processes through root cause analysis and technical resolution.
- Develop and maintain automation solutions using Zapier, Google Apps Script, and native CRM workflows to streamline business operations.
- Manage Microsoft 365, Outlook, and Adobe Acrobat Sign solutions, including email administration, fillable PDF forms, e-signature workflows, and document automation.
- Building a custom deal intake web application with Next.js, GitHub, and Vercel, featuring private file storage and GoHighLevel integration (in development).
- Built a DSCR loan calculator in Jotform using form calculation fields.
- Collaborate with cross-functional teams to document processes, implement new systems, and improve CRM performance, automation reliability, and operational workflows.
- Support CRM operations and backend automation for partner organizations, including One Finance Source, Term Loan Solution, and Alliance Capital Enterprises Inc., ensuring efficient funding workflows and system optimization.

Key Contributions

- Managed the company website and operational tools.
- Built and managed a call-center system and workflows for business-loan leads, including outreach calling, calendar scheduling, intake forms, and lead follow-up.
- Set up remote access from the Philippines for the team to use three physical office computers in Wisconsin.
- Helped teammates onboard to tools and provided ongoing setup and workflow assistance.
- Built a GoHighLevel HELOC drip campaign for about 14,000 leads: five MMS offers with landing pages, Day 1–21 follow-ups, Jotform intake with Slack alerts, automatic STOP/unsubscribe handling, and a matching HTML email campaign.
- Managed lead operations and CRM workflows, including Google Sheets lead tracking, lead handoffs, duplicate checks, and workflow troubleshooting.
- Configured proxy workflows using ProxyLab, Oxylab, and IPRoyal.

Marketing Operations Assistant
Finance Parrot | May 2025 – July 2025

- Supported daily operations, executive tasks, and project coordination.
- Managed website updates, SEO improvements, lead generation initiatives, and cold email outreach campaigns.
- Monitored campaign performance and provided administrative support.

EDUCATION

Western Institute of Technology
Information Technology (Undergraduate)
2015 – 2020

Executive Assistant to CEO
One Virtual Desk | February 2024 – May 2025
- Supported executive operations, project coordination, and business processes across multiple departments.
- Built and managed GoHighLevel (GHL) workflows, CRM automations, lead capture systems, and follow-up campaigns.
- Maintained CRM data, pipelines, and client communication processes to improve lead management and conversion.
- Managed websites, SEO initiatives, and client support requests.
- Supported recruitment, sales, marketing, and client success operations.

Content Management Specialist
StratHauz | November 2023 – January 2024
- Assisted with website management, SEO, and lead generation.
- Conducted keyword research and supported content marketing efforts.

Field Service Technician (IT)
Self-Employed | January 2018 – Present
- Provided technical support for hardware, software, and networking.
- Installed, configured, and maintained IT equipment and systems.

SELECTED PROJECTS

AFS Deal Intake Web Application (in development)
Next.js | GitHub | Vercel | Private file storage | GoHighLevel API
A custom intake application that collects deal submissions and documents, stores uploads privately, and passes submission data into GoHighLevel.

GoHighLevel CRM Workflows & Lead Nurturing
GoHighLevel | SMS & email automation | Round-robin calendars | Slack
Re-engagement for thousands of inactive leads plus inbound nurturing, so aged leads are followed up without manual intervention and every inbound lead gets timely communication.

AI Voice & Conversation AI Implementation
GHL AI Agents | Conversation AI | AI Voice | OpenAI
AI agents and a workflow that turns call transcripts into structured CRM summaries, reducing manual note-taking and improving AI response quality.

Google Sheets, Apps Script & Webhook Integrations
Google Sheets | Apps Script | Webhooks | Zapier | Bulk import
A Lead Age process that standardized the field across existing contacts, improving reporting accuracy, lead prioritization, and operational visibility.

Jotform DSCR Loan Calculator
Jotform | Calculated fields
Returns the debt service coverage ratio as soon as the figures are entered, giving a quick and consistent way to size up a loan scenario.

CRM Infrastructure, Troubleshooting & Process Automation
GoHighLevel | Zoho CRM | Microsoft 365 | Adobe Acrobat Sign | Zapier
Day-to-day CRM administration, troubleshooting, and automation for AFS and partner organizations, supported by documentation and SOPs.
